

REMARKS

The newly submitted Figs. 4A and 4B are necessary for compliance with 37 CFR §1.83, which requires that claimed features be shown in the drawing. These new figures are based on the originally filed specification, claims, and drawings, and are not believed to present any new matter.

The specification has been amended to include a description of the drawings, with reference numerals.

This preliminary amendment is presented to place the application in proper form for examination and to eliminate multiple dependency from the present claims. No new matter has been added. Early examination and favorable consideration of the above-identified application are earnestly solicited.

Any additional fees or charges required at this time in connection with the application may be charged to our Patent and Trademark Office Deposit Account No. 03-2412.

Respectfully submitted,
COHEN, PONTANI, LIEBERMAN & PAVANE
